

Welcome to the North Carolina Homicide Investigators Association website. I encourage you to visit the different sections of this site to learn about how and why this association was formed as well as what we do, who the board members are and what you can do to become involved in the association. The information for the Spring 08 conference in Banner Elk is posted and the board is currently working on the agenda for the Fall 08 conference at Carolina Beach. We are excited about the upcoming training and hope you have the opportunity to come so you can hear the speakers who will be presenting. Our membership and the active participation that each of you provide is our most valuable asset, by helping the association to grow while continuing to provide up to date information and training. Numerous investigative leads and techniques have been developed by both those presenting cases at the conferences and the members in attendance. The local, state and federal level contacts developed during this training are invaluable to the homicide investigators who attend. Your input as to what topics you would like to have covered and the speakers you wish to hear, help us provide a level of professional training and development that are not readily available otherwise. We strive to keep our costs down in an effort to make it available for every investigator, regardless of the size and budget of the department that the officer comes from. If you have any questions or concerns feel free to contact me at swatkins306@yahoo.com. I wish everyone success and safety in your jobs and look forward to seeing each of you at Banner Elk in March.

Sincerely,

Stanley T. Watkins, President
